In Cerberum Forenſem

Ἀφόρητος ἐστὶ εὐτυχῶν μαστιγίας.

Comprime latrantes, edentule, comprime rictus,
Cerbere, Siſyphio ſanguine digne nepos.
Quid genus innocuum laceras, ſanctoſque penates?
O nimis infandis cognite deliciis!
Quem penes aerarî deponit furta Laverna,
Et bene placato conſule praedo latet.
Quem nuper viſae ſacris devota Minervae
Turba colit, ſcopulis mox peritura novis.
Turba rudis, caſtae fingendaque pollice Divae
Proſtibuli argutis frangitur illecebris.
Primitias tenerae locat hic (pudor!) Iphigeniae,
Et leno natam ventilat ipſe ſuam.
Nec dubitat ſocio thalamos tentare pudicos
Pullo, nec ſacri ſpernere jura laris.
Pullo, qui ſanctum ingrato pede calcat amorem
Perfidus, unanimes diſſociatque toros.

Scilicet has meritis grates perſolvere amici
    Laus, Epicureo Calchas amate gregi.
Ille iterum pingues tibi conciliavit amores;
    Thebano docuit rite calere Deo.
Otia lauta dedit, coenisque accumbere Divûm,
    Ille dedit ſenio ſplendida fulcra tuo.
Vulgivagae nectit Veneri Soror improba caſſes,
    Dum fratris laqueo guttura preſſa tument.
Plangit Eliſa olim molli libata Bathyllo
    Baſia, & infelix uritur igne novo.
Adſidet attonitae genitrix, Bacchoque recocta
    Spondet venturos, gaudia vana, procos.
Illa diu ſpreto fervens negat otia cunno,
    Nequitiaſque probat, Lesbi puella, tuas.
Ac tribadum querulae implorat ſolatia vulvae,
    Praeſidia haec dubiis optima virginibus.
Comprime latrantes, edentule, comprime rictus,
    Cerbere, discinctûm cura pudenda ſenum.

Quid prodeſt domino caudam jactare ſalaci?
  Ruricolam in triviis permolit ille lupam.
Et tandem moto nudus fractuſque fritillo,
  Vicinas relegit (tempora dira!) nuces.
Nec pupillares curabit reddere gazas:
  Nec bona, quae nullo pignore tuta dabas.
Circumſcriptorum ſequitur longo ordine turba,
  Quae repetit plumas, improbe praedo, ſuas.
Non te defendent Praetoris cornua moechi:
  Albini cineres non tua damna movent.
Nequidquam domini laſſas monumenta querelis:
  Cujus ſuppliciis terga ſceleſta rubent.
Non curat Batavos planctus vicina Minervae
  Heu! quondam donis curia capta tuis.
Perdite vos, Proceres, monſtrum inſatiabile: peſtem
  Tollite: jam Themidi victima grata cadat.
Adſit ſuppliciis patriae probus aemulus artis
Natus, & ultores ſentiat ipſe Deos.

Laxato Albinus veniat ſpectator Averno,

Conſciaque emeritae miſceat oſſa Roſae.

Ni cadat hic (moneo) non vos luſtrare valebit

Rhenus, non mordens Cattica clauſtra Thetis.
